FOREST/CUSCINI/CUSHIONS

Progetto Forest/Forest design: arch. Robby e Francesca Cantarutti
Sviluppo cuscini Forest/Development Forest cushions: Fast - Studio Controdesign

100% DRALON

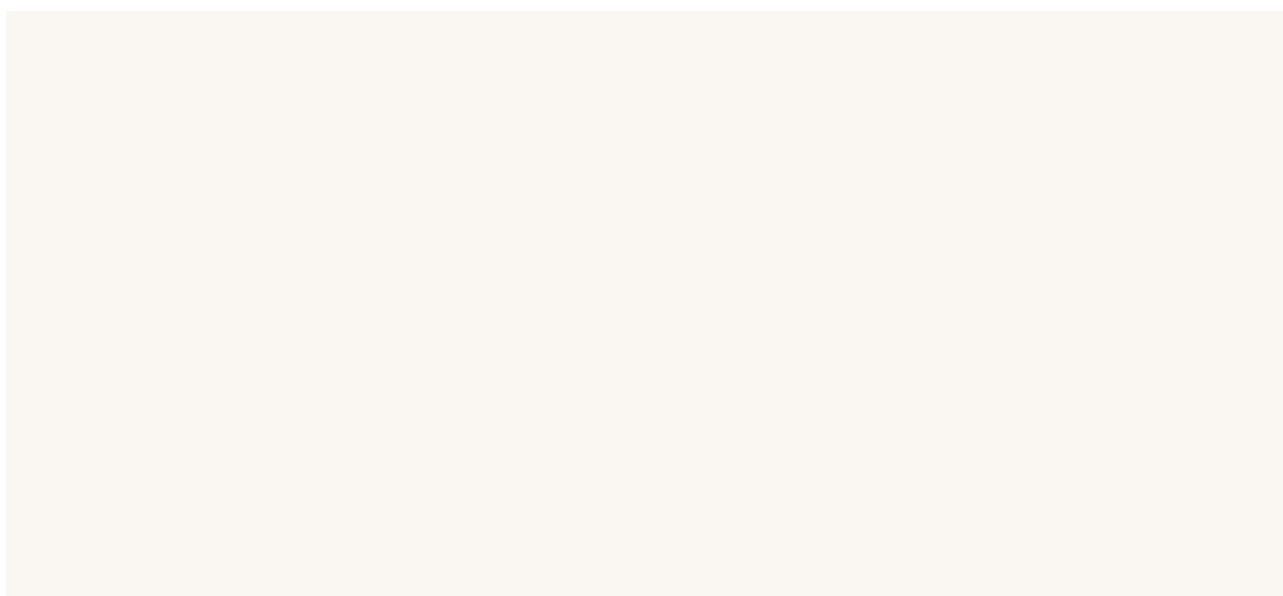

MADE IN ITALY

Grigio fango o bianco sono i colori proposti per le cuscinate della sedia e della poltroncina Forest, dal disegno che si ispira al mondo della natura. Un albero per Forest, una foglia per i suoi cuscini. In Dralon, un materiale lavabile e di facile manutenzione, sono pensati per una lunga durata e permanenza in ambienti esterni oltre che, naturalmente, per quelli interni.

Mud grey and white are the colors proposed for Forest chair and armchair cushions, based on a design that draws its inspiration from the world of nature. A tree for Forest, a leaf for its cushions. Made of Dralon, a washable, easy to maintain material, they are made for a long, durable life both outdoors and, of course, indoors.
